Introduction

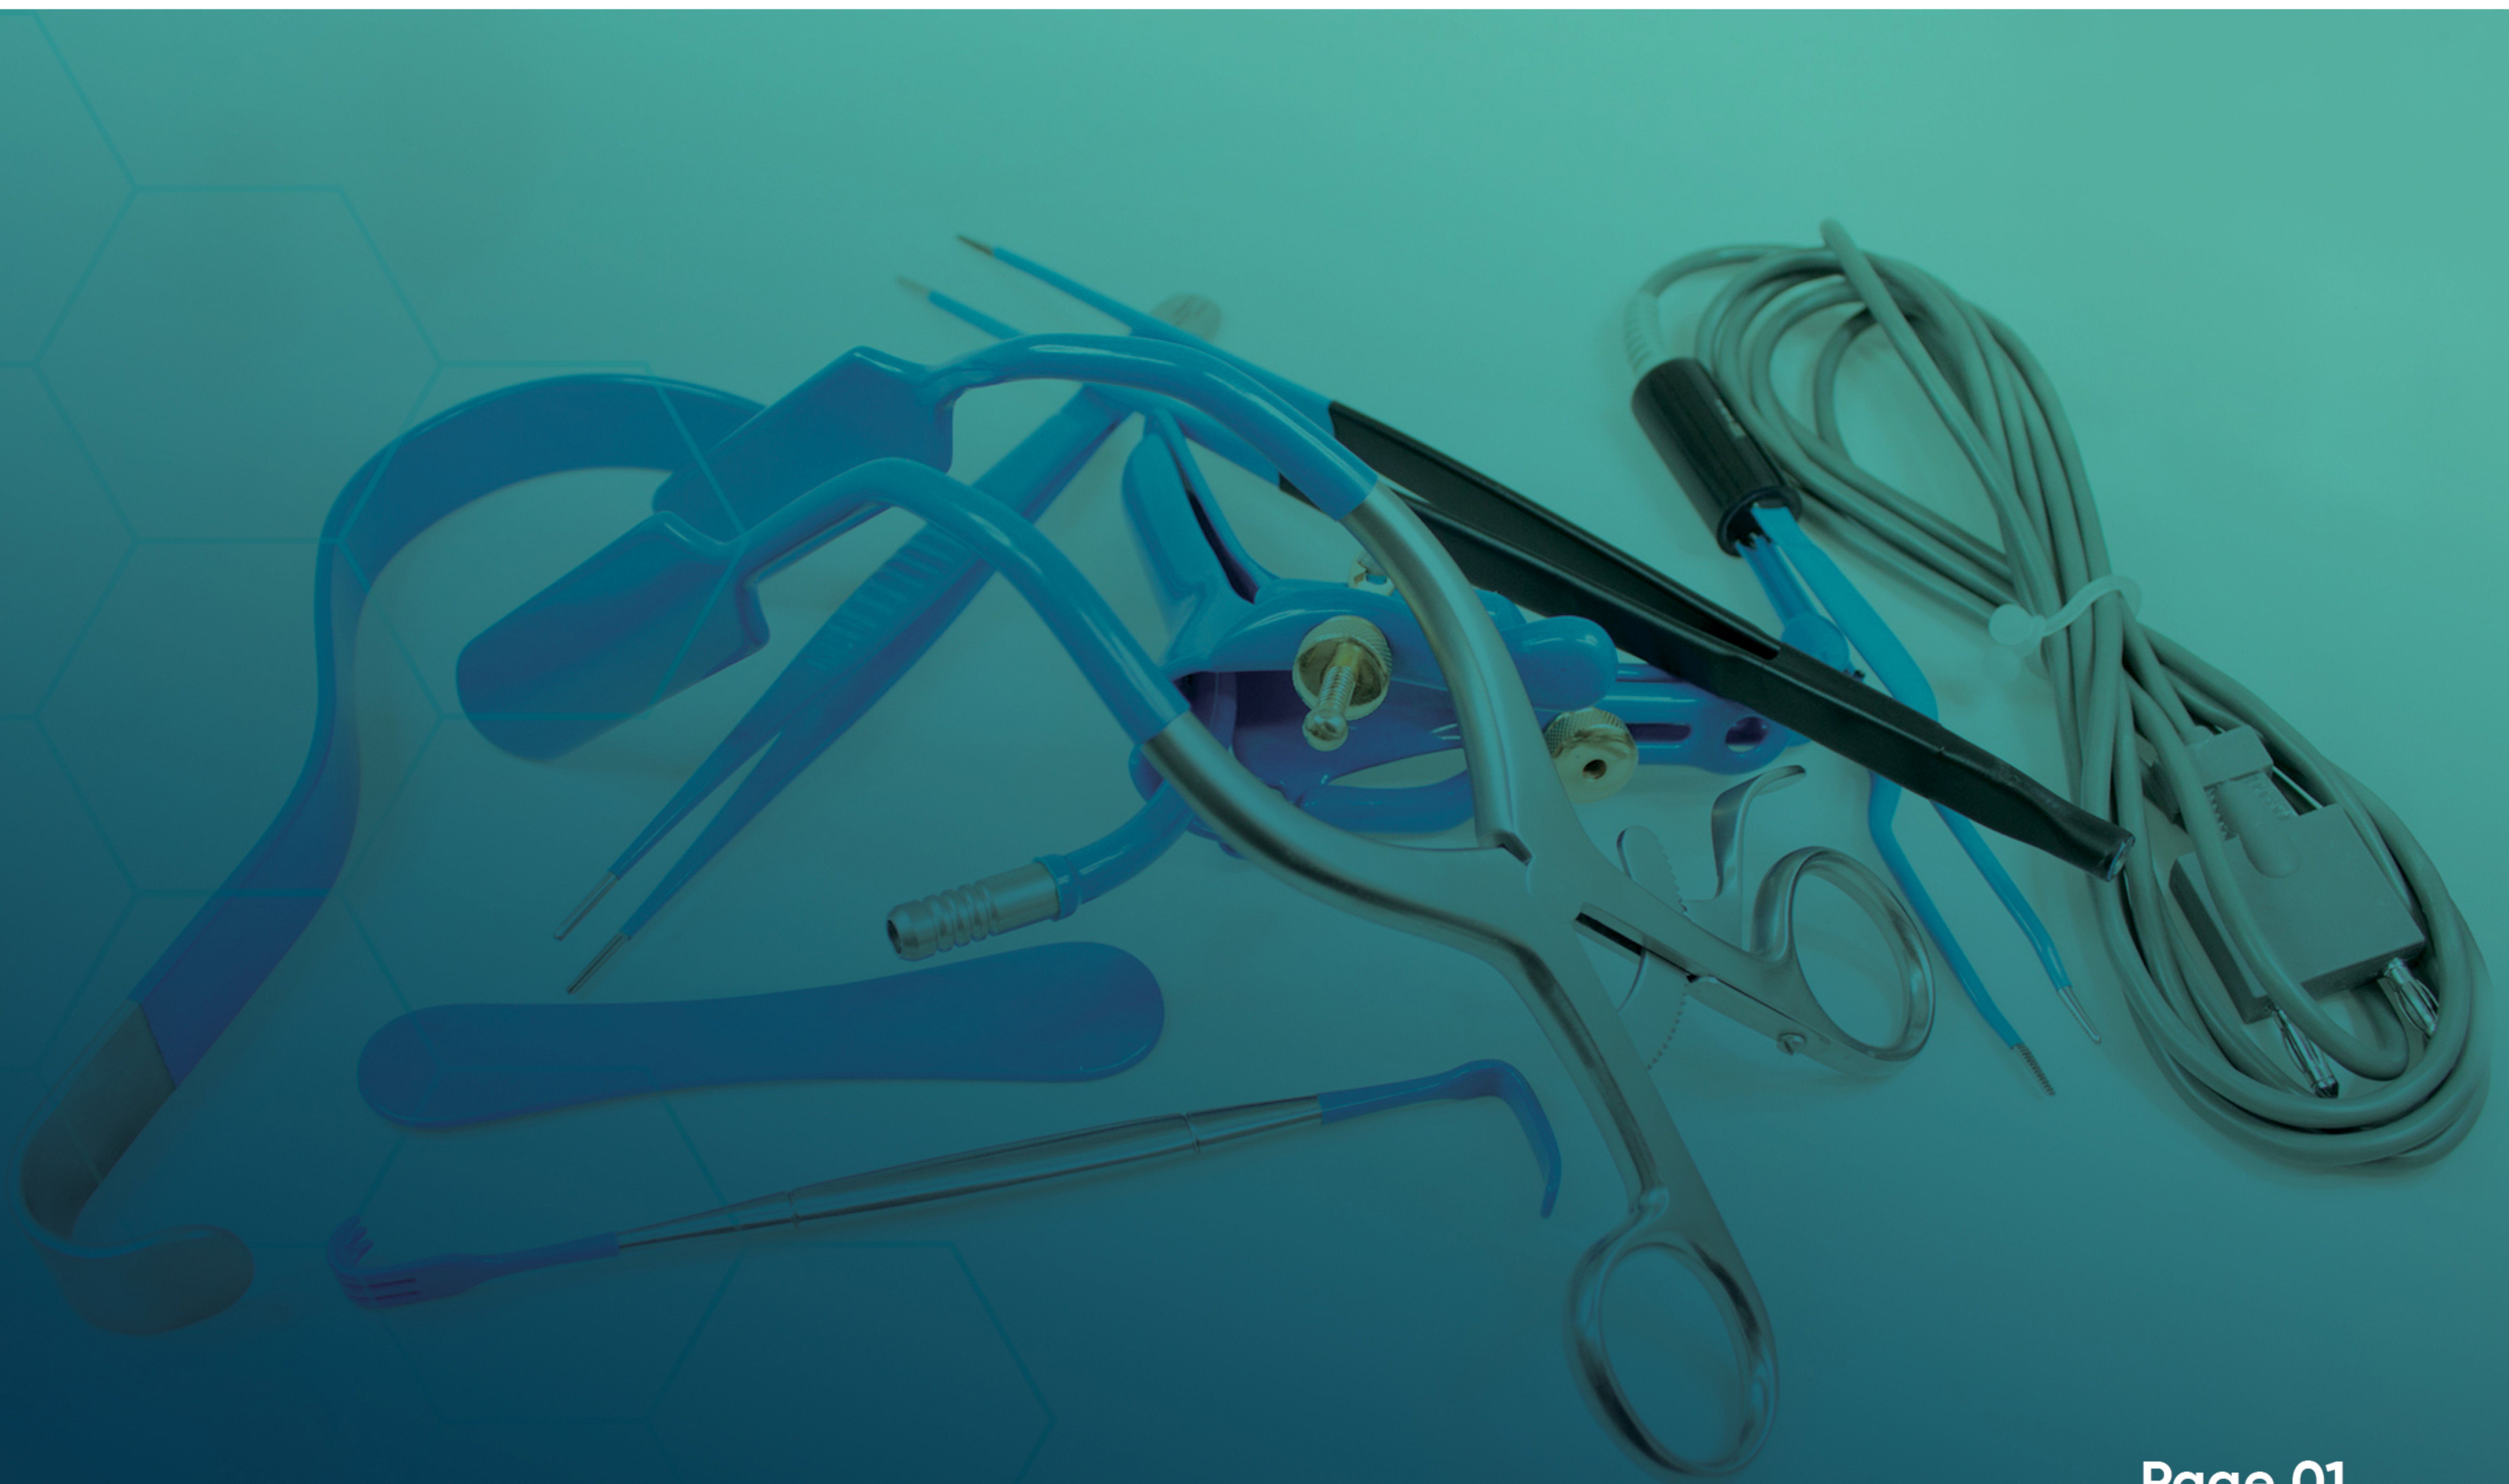

Electrosurgical Instruments place the highest demands on precision, safety and controlled energy application.

Every procedure – whether in general surgery, gynecology, laparoscopy or microsurgical interventions – requires reliable electrosurgical instruments that ensure accurate tissue management, effective coagulation and maximum procedural safety.

MHP – Sterile Instruments stands for high-quality electrosurgical solutions specifically developed for the demanding requirements of modern operating theatres. Our portfolio includes carefully selected instruments designed for precise electrical performance, ergonomic handling and long-lasting material quality.

All products are manufactured according to strict quality standards and are optimally tailored to the needs of contemporary surgical environments. Safety, functionality and consistent performance are at the core of our approach.

With this catalogue, we provide you with a structured overview of our electrosurgical instrument portfolio – offering dependable solutions for efficient and precise surgical workflows in daily clinical practice.

European Bipolar Forceps
